SOUTH CAROLINA SECOND INJURY FUND

Douglas P. Crossman

Director

MISSION

The Second Injury Fund functions within the South Carolina Workers' Compensation System. The mission of the Fund is twofold:

1. To protect employers from the higher cost of insurance that can occur when an injury combines with a prior disability to result in substantially increased medical or disability costs than the accident alone would have produced. This ensures that an employer is not made to suffer a greater monetary loss or increased insurance costs because they hire or retain an employee who has a disability.

2. To ensure payment of workers' compensation benefits to injured employees whose employers have failed to comply with the coverage provisions of the Workers' Compensation Law.

ORGANIZATIONAL VALUES

- Administer claims in a fair and impartial manner
- A highly professional and well-trained staff
- Continuous improvement of services

GOALS AND OBJECTIVES

The performance expectations of the agency, as a whole, and of each individual are reviewed regularly to ensure that we continue to meet or exceed the goals and objectives outlined. These goals and objectives are directly related to the agency's organizational values.

Goals

- To protect employers from increased workers' compensation insurance cost
- Advance the hiring and retention of the disabled
- To ensure payment of workers' compensation benefits to injured employees whose employers are in violation of the Workers' Compensation Law

Objectives

- Prompt determination of eligibility
- Efficient claims processing and payments
- Contain claims cost
- Sound fiscal management

YEAR IN REVIEW

The number of employers benefiting from the Second Injury Fund was 1,786.

With our reimbursement auditing process we have been able to reduce the Fund's payout by 5.3 million dollars. This savings resulted in a 14.5 million dollar reduction in the annual assessment.

We accepted 1,786 claims, of these 93% or 1,654 were within 4 years of the date of accident. This ensures that these claims should not adversely affect the employers' workers' compensation insurance premium.

The number of employees benefiting from the Uninsured Employers' Fund was 479.

The most significant achievement during the past year was the legislative amendments to our governing statute. These amendments were the result of a concerted effort by diverse parties from the workers' compensation community. These changes to our law will enhance the sound fiscal condition of the Fund without adverse impact on the parties protected by the statute. This will make our agency a more effective and efficient entity of the workers' compensation system in South Carolina.

We were successful in implementing major upgrades and changes to the Claims Management System (CMS). This was completed with a combined effort by the Fund personnel and members of the Office of the Chief Information Officer. This was the first major upgrade to the CMS since its inception in 1989. These upgrades and changes will enhance the overall claims system and processes throughout the agency and will benefit both internal and external customers.

The Fund measures the number of days needed to process claim reimbursements. We compare our performance with “like” second injury funds in Georgia and Louisiana because their law is very similar to South Carolina Law. As shown below we have set the standard for the expeditious processing of claim payments.

Average Number of Days to Pay Claims

The Second Injury Fund has conducted an annual customer survey for the last four years to measure customer satisfaction. Each customer evaluates our performance using a four point Liker Scale. Additional space is provided for written comments and to answer open-ended questions. We use this information to determine customer expectations and to gather recommendations on improving services. This information is compiled and trends are noted and distributed to all employees.

We use the percentage of positive responses to determine trends. The results for the last four years are shown below.

Percent of Positive Responses

We compare our customers' satisfaction against the American Customer Satisfaction Index (ACSI) produced by the American Society for Quality. The index is nationally recognized and provides industry specific measures of customer satisfaction. The results of the customer survey are converted to a comparable scale of 0–100 and then measured against the indexes of the insurance industry and public administration. The results shown below indicate that the Second Injury Fund is exceeding the ACSI for both comparable industries. Data for FY 2003 from ACSI is not available.

Customer Satisfaction Compared to ACSI

SECOND INJURY FUND

Director

The administration and operation of the Fund is the responsibility of the director who is appointed by and serves at the pleasure of the Budget and Control Board.

Under the general supervision and management of the director are the Fund's four functional divisions.

Claims

The Claims Division is responsible for the investigation, evaluation and development of action to reach a final decision for each claim. Conflicts of a non-judicial matter are resolved in the claims division.

Recoveries

The Recoveries Division is responsible for the recoupment of all benefits, costs and expenses paid by the Uninsured Employers' Fund. These recoupments are levied against the employer or whoever was legally responsible for payment of the claim.

Legal

The Legal Division represents the Fund in contested hearings before the Workers' Compensation Commission and in all appeals to higher courts.

Administrative

The Administrative Division is responsible for all internal programs such as assessment, finance, budgeting, human resources and staff development. They are also responsible for all administrative support to the Director and the three divisions.

STATUTORY AUTHORITY FOR THE AGENCY

Section 42-7-310 of the South Carolina Workers' Compensation Law creates the Fund and establishes the agency to administer the Fund in accordance with the provisions of Sections 42-9-400 and 42-9-410.

CRITERIA FOR REIMBURSEMENT

Before the Fund can reimburse an employer, a disabled worker must suffer a subsequent injury. This injury must combine with or aggravate the prior impairment, thus causing liability substantially greater than that which would have occurred from the subsequent injury alone. This is the basic concept of Second Injury Fund legislation, and without this substantial increase in liability, the employer has not been placed at a disadvantage. Therefore, he would not be eligible for reimbursement.

The following outline lists the basic requirements for reimbursement:

1. The employee must have a prior permanent physical impairment of such seriousness as to constitute a hindrance or obstacle to obtaining employment or re-employment.
2.
 - (a) The employer must prove that he had knowledge of the permanent physical impairment at the time the employee was hired or retained when a claim is made for reimbursement; or
 - (b) The employer may qualify for reimbursement if he can prove that he did not have prior knowledge of the employee's pre-existing physical impairment, because existence of such condition was concealed by the employee.
3. The employee must sustain a subsequent occupational injury:
 - (a) Which results in the employer's liability for disability and/or medical cost that is substantially greater than that which would have resulted from the new injury alone because of a combination with or aggravation of the prior impairment.
 - (b) Which most probably would not have occurred "but for" the presence of the prior impairment.
 - (c) Which results in death, and the death would not have occurred except for the pre-existing impairment.

4. Prior to reimbursement from the Fund, the insurer shall be required to certify that the medical and indemnity reserves have been reduced to the threshold limits of reimbursement.

ASSESSMENTS

Section 42-7-310 subsection (d) of the Workers' Compensation Laws of South Carolina states that:

The funding of the Second Injury Fund on a continuing basis shall be by equitable assessments upon each carrier (which, by definition herein, shall include all insurance carriers, self-insurers, and the State Accident Fund) in a manner as follows:

Equitable assessments upon each carrier which, as used in this section, includes all insurance carriers, self-insurers, and the State Accident Fund. Each carrier shall make payments to the fund in an amount equal to that proportion of one hundred seventy-five percent of the total disbursement made from the fund during the preceding fiscal year less the amount of net assets in the fund as of June thirtieth of the preceding fiscal year which the normalized premium of each carrier bore to the normalized premium of all carriers during the preceding calendar year. Each insurance carrier, self-insurer, and the State Accident Fund shall make payment based upon workers' compensation normalized premiums during the preceding calendar year. The charge to each insurance carrier is a charge based upon normalized premiums.

These assessments were sent to each carrier in October 2003 and payments subsequently received by the Second Injury Fund.

175% of the Disbursement is \$197,284,909.01

Less Remaining Net Assets @ June 30, 2003 \$63,938,277.96

Equals SIF Assessment for 2002-2003 \$133,346,631.05

This assessment (\$133,346,631.05) divided by the aggregate normalized premium for all carriers (\$1,019,151,387.00) equals the assessment rate (.130840847) applied to each carrier.

SOUTH CAROLINA WORKERS' COMPENSATION UNINSURED EMPLOYERS' FUND

The State Workers' Compensation Insolvency Fund, S.C. Code Section 42-7-200, was established on February 24, 1982. On April 26, 1989, an amendment to this Act placed the administration of the Fund with the South Carolina Second Injury Fund. On June 12, 1990, it was changed to the South Carolina Workers' Compensation Uninsured Employers' Fund.

The mission of the Uninsured Employers' Fund is to ensure payment of workers' compensation benefits to injured employees whose employers have failed to acquire necessary coverage.

For a claim to come within the scope of the Uninsured Employers' Fund, there must first be a finding by the Workers' Compensation Commission that an employer is subject to and in violation of the Workers' Compensation Law as a result of their failure to provide the necessary insurance coverage. If that determination is made, the Fund may then consider the merits of an employee's claim and pay or defend the claim as it deems necessary. Once the Uninsured Employers' Fund has paid a claim, it is entitled by statute to recover the benefits, costs and expenses from the employer or whoever is legally responsible for payment.
